GoodLeap TPO is available now in these 15 states: AZ, CA, CO, CT, FL, IL, MA, MD, NH, NJ, NY, OH, PA, TX, VA

Boost your close rates, increase homeowner accessibility, deliver predictable energy savings and maintenance-free solar with Enerflo and GoodLeap TPO

No Upfront Costs

Homeowners can install solar without any large upfront payments, making solar more accessible to a wider range of customers.

Predictable Energy Bills

With a TPO, homeowners typically benefit from lower, stable energy rates compared to local utility costs, helping them save on monthly energy expenses.

Energy Storage Option

GoodLeap TPO can easily be paired with solar energy storage, using Enerflo's proprietary storage and savings calculator, increasing value for the homeowner.

Enerflo is the ONLY Lead-to-PTO, Open API Solar Platform

Enerflo is a custom configured, multi-point solution for your solar sales and install process. With the most integrations of any solar platform, Enerflo helps consolidate your tech, centralize and standardize your data and creates process efficiencies that help you get to NTP faster, reduce your project duration -- and more.

Enerflo Is: For Sales Dealers. For Installers/EPCs. For Hybrid Orgs. For Your Customers.
